### New Edition of WWWM

Cosmotheist Books has been needing to republish one of our most important titles, *Which Way Western Man?*, for several years. We were down to so few copies of former Alliance member and Cosmotheist thinker William Gayley Simpson's masterwork recently that we hiked the price of the 1,000-plus page classic to $75 so as to keep it available and not run out entirely. We sold our last copy to an Alliance member in mid-August. The good news is that we scraped together more than $6,000 and have now published a new, third edition of this truly great book. It is being printed as this issue of the **BULLETIN** goes to press, and delivery is expected by mid-September. The price will now be dropped to a more affordable $50 per copy. Pre-orders are being accepted for immediate shipping as soon as the new edition arrives: https://cosmotheist-church.org/product/which-way-western-man-by-william-gayley-simpson/.

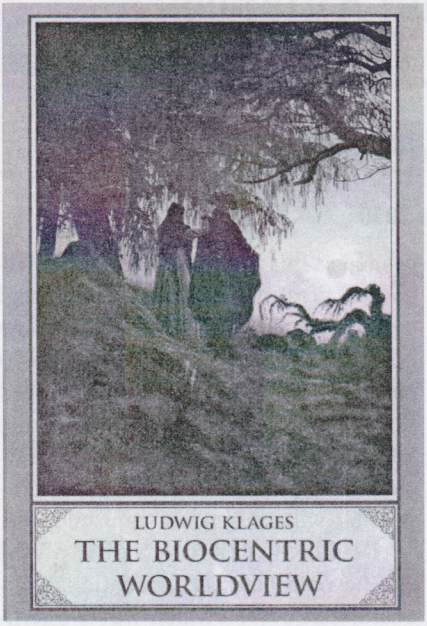
### Cosmotheist Books

Along with the new third edition of *Which Way Western Man?* in the Cosmotheist Books inventory we've added ten more new titles, six of which are recently published hardback editions. *The Biocentric Worldview* by Ludwig Klages is a title we've been wanting to add for a while and finally purchased in bulk from its European publisher. This book was translated and edited by Joseph Pryce, late Alliance member and the genius behind the music CD we sell, *Call of the Blood*. Joe died in 2016. After his death his widow Patti, who had served on staff with Joe at the Alliance's National Office in West Virginia in the early 1990s, donated more than 1,000 books from Joe's extensive collection to our William Luther Pierce Memorial Library collection. The name of the National Alliance's online forum,



White Biocentrism, was adapted from this book's title, which was an editorial title created by Joe for this collection of writings by Klages, a profound thinker and philosopher who deserves wider readership.

In nearly 600 pages, Hitler biographer Ian Kershaw analyzes the traumatic period of European history before, during and after the fratricidal world wars that nearly destroyed the European race in *To Hell and Back: Europe 1914 -1949*; Catherine Merridale's 2017 book *Lenin on the Train* (hardback) recounts Lenin's notorious "sealed train" trip from Zurich to Petrograd in the spring of 1917 that changed the course of history. She sets the stage with an overview of the last days of the Czar before the Jews murdered him and his family. *Alien Nation: Common Sense About America's Immigration Disaster* by Peter Brimelow (hardback); *In Final Defense of the Reich: The Destruction of the 6th Mountain Division "Nord"* (hardback) by Stephen M. Rusiecki carefully chronicles the final heroic months of the Nord Division's battles in the spring of 1945.

Also added is investigative journalist David Kirby's 2019 shocking eye-opener *When They Come for You: How Police and Government Are Trampling Our Liberties — and How to Take Them Back* (hardback); and the comprehensive 600-page biography *A Conspiracy So Immense: The World of Joe McCarthy* — though this book is by an Establishment Jew, David M. Oshinsky, the fact that Joe "was on to something" about Communists in America comes through in the book and resonates with us today perhaps even more than in the 1950s.

Cosmotheist Books is down to a single paperback copy of George Orwell's *1984* but we now have in stock copies of the nice Harcourt double volume of *1984* and *Animal Farm* (hardback) with an introduction by Christopher Hitchens. We also added nice hardback edition of *The Wit and Wisdom of Mark Twain*; and a nice children's project book, *Make This Model: Medieval Castle* helps the hobbyist and home-schooler assemble a superb model of a 14th century castle, almost two feet wide.

**Activism in San Diego**

More and more people are downloading material from natall.com/fliers/, printing the free fliers and stickers and distributing them. And more and more Americans have had a bellyful of media accounts of so-called "hate," as was re-

ported this month in San Diego County, California's *The Coast News*. Some San Diego Whites must be asking themselves after reading this fake news report and seeing the photo of a crumpled up flier with our Web addresses, our Life Rune, and the words, "The symbol of White resistance": "What are these fools talking about when they say 'hate' and 'hate crime'? Why are ADL Jews being notified about an otherwise handsome, harmless sticker — when those that this group opposes are burning down our cities and vowing to destroy our nation and life as we know it?" Here's the ludicrous hit piece:

**San Elijo residents remove white supremacist stickers posted in town**

*The Coast News* Editor's Note: This article has been edited for the safety of individuals speaking on the record.

SAN MARCOS — Residents have removed a number of stickers representing a white supremacist group found displayed around the San Elijo Hills neighborhood in San Marcos, according to multiple reports on Wednesday. Law enforcement is investigating the displays, which were first noticed by residents on Wednesday, but have deemed the stickers to be vandalism not hate crimes, according to Ricardo Lopez, a spokesperson at the San Diego County Sheriff's Department. According to the FBI's website, a hate crime is a criminal offense against a person or property motivated by the offender's bias — but hate itself is not a crime. As of Thursday morning, seven stickers associated with National Alliance, a white supremacist group, have been found attached to traffic signal poles and electrical boxes. No witnesses or suspects have been identified at this time, police said.

Remove one, we'll post ten more: Here is a great message to inspire growing racial consciousness among Whites in your local community. Someday we hope to see billboards with this message on them. Anyone wishing to fund such a billboard, please write to the National Office.

San Elijo Hills resident Kelley (who asked her last name not be published) removed a National Alliance sticker from an electrical box near Morgan's Corner, a neighborhood within the residential community of San Elijo Hills, early Wednesday morning before notifying the police. Since Kelley first posted about the incident on Facebook, more residents have followed her lead, finding and removing multiple stickers around town. "I was shocked, disgusted and enraged," Kelley said. "I'm not fearful, create change and do not have these tokens of hate infiltrating our neighborhood." San Marcos City Councilman Randy Walton shared photo evidence of the stickers with the city later Wednesday afternoon, and public works staff were directed to remove any of the hate symbols they can find. "It's obviously a crime of hate even if it's just graffiti," Walton said. "I know that I speak for the whole city when I say that we condemn the posting of racist stickers in the strongest terms possible, and we all hope that it's not somebody who lives around us."

Organized in 1974, the National Alliance's website reads, "We believe that no multi-racial society can be a truly healthy society, and no government which is not wholly responsible to a single racial entity can be a good government."

Seeking guidance and support, Kelley reached out to the Anti-Defamation League, an international organization that aims to help communities fight anti-Semitism and bigotry. "A lot of people are really, really scared," Kelley said. "But that's what they want you to do, is create fear. So screw that." Residents will hold an event called "No Space For Hate in SEH" at 12 p.m. on Sunday, August 9, at the San Elijo Fountain to "say no to fascism, white supremacy and hate" in their neighborhood.

At least they accurately quoted part of our statement of belief. KGTV, the ABC News station in San Diego, weighed in on this same so-called "hate" incident with this breathless report:

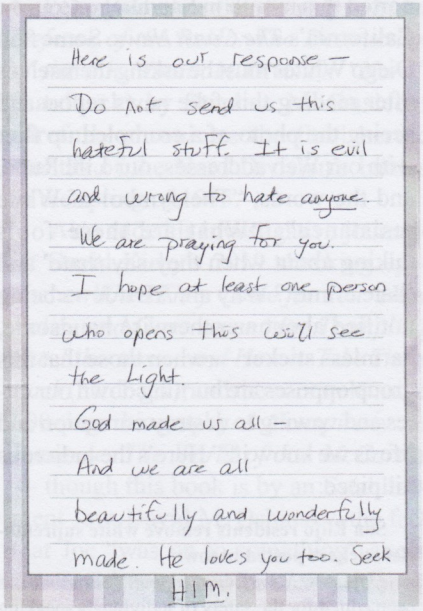
**Neighbors quickly rip down white supremacist stickers**

A group of San Marcos neighbors took swift action after white supremacist recruitment stickers appeared just steps from their front doors, and outside nearby schools.

They noticed a red sticker stuck to an electrical box. When they looked closer, they saw a message of hate, one that read: "The symbol of white resistance." The sticker included a link to a website filled with hatred — towards Jews, African Americans, and the LGBTQ community. ABC 10 News is not identifying the group. "Really I just see it as an act of pure evil, and it has no place in my community, it has no place in any community," [Kelley] Keatly said.

Keatly took the sticker and posted an image of it on a neighborhood Facebook page. Melissa Burgess saw the post and then found four — on electric boxes and traffic lights, including ones near San Elijo Elementary and Middle schools, where her children attend. "I came home, I was shaking just from anger and pain and hurt and just all of that from having seen that here in my community," she said. Then, even more neighbors found the stickers, including on the back of stop signs. The stickers come after a recent spate of hate-inspired incidents in the county, including people wearing swastika face masks to grocery stores, and another driving with a Nazi flag. Tammy Gillies, who heads the San Diego Anti-Defamation League, says it's vital to report all incidents. "You have one person that can be radicalized on the Internet, one person that is drawn to look at a website through these fliers or these stickers and goes down a wrong path, so it is very concerning," Gillies said. She alluded to last year's deadly shooting at the Chabad of Poway synagogue, allegedly carried out by a 19-year-old radicalized online. The Sheriff's Department says a total of seven stickers were located. It is investigating and asking anyone with information to contact the San Marcos station at (760) 510-5200.

Facebook's Mark Zuckerberg and his fellow Jew "hate"-blockers had better



Here is our response —
Do Not send us this
hateful stuff. It is evil
and wrong to hate anyone.
We are praying for you.
I hope at least one person
who opens this will see
the Light.
God made us all —
And we are all
beautifully and wonderfully
made. He loves you too. Seek
HIM.

tighten things up since their "likers" are sidestepping them, and controlled media outlets like Jew-owned ABC News, by posting images of our stickers to neighborhood Facebook pages. May we add that that's quite a leap for that ADL Jewess to make: associating our sticker to some synagogue shooting. Those Whites who see our Web address, visit our sites, and contact us, will usually tell us something like, "The National Alliance is like a breath of fresh air!"

### Hate Mail

For laughs: One recipient of the mass mailing about which we reported in last month's **BULLETIN** — the one with our unpublished letter to *The Baltimore Sun*, cover letter, flier, and sticker — responded negatively. This anonymous complainant included those inserts, torn into little pieces, along with the note above. Chairman Williams reports

that when he unsealed the envelope that contained this note, neither he nor his wife Lana saw any light.

## Correspondence

Greetings kinsman Will! Just a short note to thank you for the July **BULLETIN** and the book *Cosmotheism*. The **BULLETIN** arrived on the 7th and the book arrived in last night's mail. I really appreciate the book and thank you for your support. The NA is part of the rope that is helping this old warrior cross the abyss. Give my regards to all. Take care and stay safe — interesting times are heading our way. 14 Words, — *Richard Scutari, California*

Chairman Williams, as of August 20th my family and I have been living on our Cosmotheist Community property and working for the National Alliance for one year. What a year it's been! I left my job as a custom motorcycle builder to relocate and work here. That was my dream job before this. Barbara and I honestly never thought we could be happier, but here we are, I honestly love what we do every day. Living in the remote wilderness of West Virginia, trying to become as self-sufficient as possible, and doing all that we can for the Alliance. You know the saying, "If you love what you do, you'll never work a day in your life." I absolutely love what I do now. Our fight is not easy; our foe is formidable. But our path is righteous. We have the truth on our side and it's do or die. With the current state of the country I cannot think of a better way to spend my life working for our Alliance and raising my White family. For all the trials and tribulations the Alliance has gone through in the past I can see we are getting stronger every day. I'm so proud to be a part of that; to look into my son's eyes and be able to say to myself that I'm doing something. I didn't just sit on the couch and watch the news and I didn't let the niggers destroy my city. I don't have to worry about being afraid of losing my job for some petty infraction. I committed myself and my family to this Alliance to live and work one year ago. All I can say is that it was the best decision I ever made in my life. Thank you. Sincerely, — *Donald MacMullen, West Virginia*

*Chairman Williams responds*: The National Alliance thanks you and Barbara, Donny. Your job is secure for as long as you can take West Virginia (then you can come on down to Tennessee). Y'all have turned things around nicely on The Land. I am aware that you have corresponded with Mr. Scutari. Others so inclined are encouraged to drop him a note of appreciation, here:

Dear Chairman Williams, I enclose a [$100] check to catch me up on my dues. The [July] **BULLETIN** is interesting and informative. The situation with Black Lives Matter, monument destruction, antifa and all the riots is working things our way! I would prefer four more years of Trump, considering the alternative, but we can't control any of that so we will have to take things as they come. If Trump loses, expect the media to use increased Christmas gun sales to be screeching about Whites preparing to overturn election results by armed force. Right now it is rumored that it is the Blacks purchasing lots of guns — due to the threats of defunding the police, they will have to defend themselves from their own kind. Take care. Sincerely yours, — *O.C., Louisiana*

*Chairman Williams responds*: It's not a rumor. O.C. Blacks are buying more guns than ever before. Whites are buying guns; everybody is buying guns as a result of the unrest and violence sweeping the country. Even Asians who worry that they will be blamed for the Chinese virus are buying guns. It's a dangerous world out there and our people need personal protection, and not just in their homes. Ammo is getting scarce, so make sure you cache plenty of rounds for your firearms while you can. If the far-left Democrats prevail in November, they may think they'll take guns from Whites in West Virginia and Tennessee, but who do they think will

take them? Homeland Security must depend on local law enforcement to do their confiscations. That could pose a problem for the gun grabbers.

Hello Chairman Will: Sorry I was unable to make a mid-year donation in 2019. This year is somewhat better for me, and a [$1,000] check is enclosed. The payment for my annual dues will be along in November. I continue to be highly impressed with the progress the Alliance has made under your leadership. You have brought our most essential organization back to life. — *R.O., North Carolina*

Dear Chairman Williams: Thank you for welcoming me into the National Alliance. I've actually been racially aware for a long time now. I started learning about Jews and following National Socialism about 12 years ago thanks to my mother who should be joining soon as well. She loves y'alls stuff. My fiancée is also very much awakened now and she's definitely someone we want on our side. At the rate things are going now I need to get more active since I know the truth about what is really going on. I feel with the knowledge comes responsibility to my Folk. In these dark times my people need enlightenment more than ever. The Hebrew agenda is to cause total chaos and destruction of everything healthy, natural, and Aryan. Starting with individual sexual orientation on to the family unit and ultimately with civilization itself. They are the virus/disease and the horrible things going on now are the symptoms. Hail Victory, — *D.S., Mississippi*

*Chairman Williams responds*: Yes, D.S., your mom has joined now. We hope your fiancée will join, too. You'll have the core for a National Alliance Local Unit soon.

Dear National Alliance: Enclosed is a check for the combined application fee and first month's dues for both of us. We learned about you after reading about Dr. Pierce and Dr. Oliver. We are looking forward to getting to know better fellow Whites who are well aware of just who our real enemies are, what they are doing now, and what they have done in the past to destroy our people and civilization. It appears that the agenda of these creatures is now on the fast track toward the dystopia they have in mind for us, and yet there are so few of us that are aware of it. The first books we read on the subject that started to wake us up are Henry Ford's *The International Jew: The World's Foremost Problem*, Louis Marschalko's *The World Conquerors*... We noticed that where you receive your mail is only about 100 miles from where Ingrid Zundel received hers up until her death (which was just about two months or so after the death of her precious husband, Ernst). We sorely miss these two wonderful people and great contributors to our cause.... — *Mr. and Mrs. M, Nevada*

Dear Chairman Williams and all at NA: I am proud to be a member, finally. I was hesitant to join (and still am a bit concerned), that by being on your "list" I may be calling the wrong attention to myself. However, with all that's going on now I find it more important to connect myself with those who share similar beliefs. If there is anything I can help with, feel free to contact me. There are usually gun shows around here and I'm happy to sit at an Alliance table, or however I may help. Design some T-shirts, blog? Stuff envelopes? About me: I'm 48, a 7-year widow, and mother of a beautiful 13-year-old red-haired, home-schooled daughter. We previously lived off the grid for three years with my late husband. Our cabin was hand-built from trees cut off of our own homestead. We lived on what we grew, gathered, raised, shot, trapped, or bartered for. I have cultivated survivalist skills since I was a teen.... I'm interested in meeting anyone who shares your values, that you trust, who is in my area. With what I foresee coming it will be best to face it within a trusted group, thus I've joined the National Alliance. I hope I haven't shot myself in the foot by disclosing too much to you. I've had no luck on my own finding folks who share my concerns. — *L.A., Tennessee*

*Chairman Williams responds*: L.A., I'm so pleased that you found our Alliance. After receiving your impressive confidential membership survey, then talking with you by phone, I learned so much more about your skills, your unique history and your motivation to work for our cause that you left out in your initial letter. What excites me most is your willingness to relocate. We need motivated, hard working

members with your skill set who are willing to move to our communities and help with Alliance-building. It's funny, when asked how and when you first came in contact with the Alliance, you answered, "A few years ago I began hearing about the National Alliance. A Bitchute video brought me back!!"

I look forward to your visit next month.

*Commentary by Chairman William White Williams*

## Speaking of Bitchute Video...

In the July **BULLETIN** we announced the successful launching of the new National Alliance Bitchute video channel (subscribe here: natall.com/bitchute). Thank you to all our members and supporters who have subscribed this month and are passing that link on to others for their enjoyment. On the last day of August, as this issue of the **BULLETIN** goes to press, there are now 38 videos uploaded of William Pierce's teachings, and we've barely begun. We have 72 subscribers, seven in just the past day. A small number so far, but a great rate of growth. If trends continue, we'll soon have hundreds of Dr. Pierce's talks and thousands of subscribers multiplying the effect of this medium to newly awakened (not "woke") Whites.

### Attracting and Recruiting Good nationalvanguard.org Visitors

We attract tens of thousands of visitors and commentators each month to read or listen to our outstanding content at *National Vanguard*. Unfortunately very few of them join our Alliance. That is a damned shame, because time for gathering like-minded, racially responsible Whites for building our resistance movement to Jewish tyranny is short and getting shorter. The following comment was put under a particularly irksome article that exposed Jewish perfidy against our race. I could see the rankled commentator needed to be in the National Alliance, not just deploring and lamenting how bad things are. So after he vented his spleen so eloquently I replied to his rant. He wrote:

> How does this not inspire Whites to violence? How is it a White person can sit here and read through how the Jews have systematically dismantled our society and not feel compelled to action? How can a White person read through this and not feel complete and total hatred of the Jewish people? This article spells it out in simple language. Jews are responsible for the transformation of American society such that what was once commonly understood as evil and wrong is now considered morally good and something worth celebration. They're evil. It's literally Satanism manifested on a national scale. A flipping of the moral compass such that what was perceived as good is now perceived as evil and what was perceived as evil is now perceived as good. Six million Jews killed in the Holohoax and how many millions of Whites were murdered before they drew breath? And we celebrate it like it's a good thing? Frankly, I think we have more than enough justification for war. It's just too few of my fellow Whites have the courage to do what is necessary. Scared into submission by "terms of service." Sitting idly by as our nation is subverted and destroyed before our very eyes. Worse still, convincing ourselves that diversity is our strength. How much farther must the White race fall before it realizes what's happening? How much pain and suffering must we endure before our natural preservation instincts kick in? Or have we been so thoroughly brainwashed that we won't resist this clear attack on our people even as we succumb

to it? If ever there was a time for our people to resist tyranny and stand free and independent it's now. I'm not convinced there are enough people who share my sentiment though. So, we will all see what happens. I for one am convinced Whites will be made to watch as our once proud nations fall to ruins as we are overrun by inferior races; made to watch as our governments turn against us as their seats are filled with those that hate our race. I pray to God it doesn't come to that but I'm skeptical there are enough with the will to resist. This comment will likely be deleted too. Not allowed to advocate what must be done to stop this destruction of your people. Tsk, tsk. — C.C.

I responded as Alliance Chairman: "Your heartfelt comment won't be deleted, C.C. Miscegenation has nothing to do with so-called Satanism. There's nothing you can do about White girls having niglets. They think that's fashionable. Our Alliance is against aborting White babies, but we don't give a whit if non-Whites abort, In fact we encourage it, like Mrs. Sanger did. What our Alliance can and does do is make ineligible for membership those Whites who have non-White dependents. We do not want them. Period. They are excluded from our community. Our members like that simple policy. Don't "pray to God" to fix the mess our race and nation are in. That is a waste of your time and energy. Get real. Face our problems as a man of your race. Listen to William Pierce's 'Our Eternal Purpose' for newfound inspiration:

"Our people will organize for our exclusive interests and we don't care what Jews, other non-Whites, or the anti-White government think about that. We have the will and the determination to separate ourselves from the non-Whites. Take Mr. [Donald] McMullen's advice [to join the Alliance]. When you do, you will find hope and contentment. Your desolation and defeatism will dissipate as you discover true purpose to your life."

C.C. responded:

Thank you for this offer. It's rare to receive such a direct and sincere response. I have a feeling I've stumbled onto a community I can finally relate to. It's been torturous wandering through the liberal established social media and trying to connect with people who've succumbed to the subversion. I think I will become a member. I've read through the membership application and I strongly agree with everything said. Our race's genetic legacy must be preserved and improved so that we take our rightful place in the future. I would love to be part of a community in pursuit of that goal.

Within a few days our National Office received C.C.'s membership application in the mail. No more stumbling through Jew-controlled social media for him.

August was another relatively good recruiting month for the Alliance. Our members are our best recruiters. If each member will recruit one new member before the year is out, we will double current membership. It is doable. **W. W. W.**
